

End of Sale (EoS) External Announcement Product Announcement

Aruba 6400 v1 Chassis and Line Cards

The 6400 v1 products are being listed as EoS due to the introduction of the 6400 v2 product line. The 6400 v2 products are GA on August 1, 2022, with R0X44C and R0X45C being GA on May 2, 2022.

The 6400 v2 products have several technology upgrades and are fully interoperable with the 6400 v1 products.

End of Sale Milestones:

- End of Sale Announcement Date: **August 22, 2022**
- End of Sale Date: **February 28, 2023**
- End of Support Life (EoSL) Date: **February 28, 2031***
- End of Warranty date: **February 28, 2031***

		R0X39C	Aruba 6400 48p 1G CL4 PoE 4SFP56 v2 Mod

* The 6400 v1 EoSL and End of Warranty Dates will be updated to match the 6400 v2 (replacement products) EoSL and End of Warranty Dates if greater than the dates contained in this document.

We currently expect that due to WW supply constraints the availability of these parts under the EoS announcement will be consumed by current backlog, however product availability is determined by announced End of Sale (EoS) date or depletion of inventory whichever comes first. We strongly encourage customers to transition new orders to the replacement products that are identified in this announcement.

For questions regarding this End of Sale (EoS) Announcement, contact aruba-EoS@hpe.com.

Note: South Korea is excluded in this announcement and for all orders from South Korea, check with local Aruba sales on the end of sales date.
